SUPPLEMENTARY DATA

Supplementary Figure S1. ESI-MS spectrogram of chaetominine.

Supplementary Figure S2. HPLC chromatogram of chaetominine. HPLC conditions: Agilent ZORBAX Eclipse XDB-C18 oven (4.6 mm × 250 mm, 5µm); flow rate: 1 ml/min; mobile phase: acetonitrile/water 35/65 (v/v); injected sample volume: 20 µl; oven temperature: 25 ºC. The purity calculated by LCsolution was 99.8%.
